

Climate change Hampshire County Council has announced the first initiatives to help Hampshire residents reduce their carbon footprint. Community projects include a **Telephone Helpline** offering advice from energy choice to insulation, establishing a **Community Energy Network** across Hampshire and a **Targeted Residential Solar Group Buying Scheme**. Parishes and communities are encouraged to take part in the sustainable community **Greening** campaign (<http://www.greening-campaign.org/>). The climate change **Action Plan** is due to be presented to the HCC Cabinet on 29<sup>th</sup> September.

**Hampshire Highways** are now re-using recycled material from old roads. Materials are screened, crushed and blended cleanly and quietly ready for re-use. With around 5,500 miles of roads this will make a significant contribution to reducing our carbon footprint. Over 40 new temporary footpaths and cycleways have been installed across Hampshire. HCC have bid for £3.45 million from Government to build more highways schemes to support social distancing, encourage walking and cycling and assist economic recovery.
